YOUR Committee regrets that from various circumstances its members have been unable to carry out any investigations during the past year. Among the hindrances the unusual inclemency of the weather must take a prominent place.

The plan of Soussons kistvaen and the sketches now given of a pit in the calm found under Cairn No. 3, Lar Tor Newtake, should have been included in last year's report, and are referred to therein (p. 141).

Plan of Kistvaen in Soussons Circle. Cavity in which Human Hair was found is indicated by concentric lines.

Plan and Section of Pit in Calm, filled with Charcoal, under Cairn No. 3, Lar Tor Newtake.

Section showing Manner in which the Stones of Cairn were leant Inwards and over the Pit.
